WANT CORPORATIONS TAXED THEIR LIMIT

Meeting of Chamber of Commerce Will be Held Tonight in an Effort to Lower Mishawaka Tax Rate.

To add a million dollars to the assessed valuation of Mishawaka by a single stroke of the pen, is the earnest hope and desire of the Mishawaka Chamber of Progress and other civic organizations in Mishawaka. At the weekly session of the board of review which is in session at South Bend, having under consideration the assessment sheets for this city.

For many months the newest civic organization in Mishawaka has been agitating the proposal to place upon the tax list the numerous franchisees granted by the city to corporations in Mishawaka. The city council will be asked to send prominent members of the city administration to urge this needed reform upon the tax reviewers. A meeting has been called for Monday night at the Hotel Mishawaka by the board of directors of the Chamber of Progress, to consider ways and means of carrying on the campaign. To this meeting the public has been invited, and the Civic League and Business Men's association have been requested to send delegate committees. The board of directors of the organization now leading the fight is composed of F. M. Barrows, D. M. McKindley, C. R. Randall, Dr. F. H. Irwin, M. E. Robbins and John E. Niles. These gentlemen are enthusiastic in their work, and are said to be preparing a vigorous manifesto to the city council and the public to come to their aid.

President Barrows issued the following letter to the Business Men's association and the Civic League Sunday night:

"Upon behalf of the Mishawaka Chamber of Progress I take the liberty to trespass upon your time and kindness to ask cooperation of your organization with the Chamber of Progress in its effort to have placed upon the tax duplicate all franchisees and their fair value heretofore granted by the city of Mishawaka to various corporations operating in this city. For a number of years all of the corporations having franchises in this city have been 'dodging' their taxes on that important item of their assets. Such a tax, although at a ridiculously low assessment, was placed against the gas company a couple of years ago at the earnest solicitation of one of the citizens of Mishawaka, who is now a member of our organization.

"The city council will be asked at its session Monday night to help in this work. The movement is for the establishment of a more just and equitable bearing of the burdens of government by taxes in this community. Your accomplishment of this work means the lowering of the general tax rate, and lifting the burden from the shoulders of the average citizen of Mishawaka, who is now a member of our organization.

"We are also inviting to this task the Business Men's association, and we confidently count upon the sincere and prompt response of the Civic League.

"The county board of review goes into session Monday morning for the week given to Mishawaka, and, therefore, we are constrained to ask the president or controlling board of your organization, to call a meeting without delay and select a strong committee to represent your organization in this effort to adjust the taxation matters for this city upon a more equitable basis.

"Owing to urgent necessity of immediate action on this matter the board of directors of the Chamber of Progress will meet at the Hotel Mishawaka Monday evening at 8 o'clock to take further steps in this campaign. The aid, advice, and counsel of any committee of your organization, or of any member thereof, at tonight's meeting is earnestly solicited, and your cooperation will be appreciated.

Sincerely yours,
F. M. BARROWS,
President Mishawaka Chamber of Progress.

Advocates of the plan to tax franchisees assert that the placing of the Mishawaka franchises on the tax duplicate will reduce the average tax rate 20 percent. Moreover, they insist that if the tax dodging corporations of Mishawaka are made to make recompense upon a fair valuation for the taxes they have evaded since 1891, when the law went into effect, enough money will at once be available to wipe out the city's indebtedness and to provide for extensive public improvements, such as paving of street intersections, equipping the public playgrounds and paying the balance due for those recreation spots.

Legal aid has been engaged, it is understood, to conduct the taxation campaign. The organizations engaged, it is said, promise that members of the state taxing board will be with them in their effort. A member of the state commission will be present sometime during the week.
